

MONESH REDDY GURRAM

tillugurram@gmail.com — 9000201821 — LinkedIn — GitHub

Summary

Full Stack Engineer specializing in **AI systems, RAG pipelines, and scalable ML applications**. Experienced in building end-to-end systems from **model integration to deployment**, with focus on **performance, reliability, and low-latency inference**.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Frontend: React, Tailwind CSS

Backend: Node.js, Express, FastAPI

AI/ML: RAG, FAISS, BM25, Prompt Engineering, Scikit-learn, PyTorch, Transformers

Databases: MongoDB, SQL

Tools: Git, Postman

Core: Data Structures & Algorithms, System Design

Projects

Hybrid RAG Multi-Document QA System

Live — GitHub

- Built full-stack **RAG system** enabling semantic search across multi-document datasets
- Designed **hybrid retrieval (FAISS + BM25)** with RRF improving answer relevance
- Implemented **SSE streaming** achieving **1–2s latency**
- Integrated **LLM (Gemini)** with query rewriting to reduce hallucinations
- Deployed scalable architecture using **FastAPI, Vercel, MongoDB Atlas**

Smart Code Translator (AI System)

Live — GitHub

- Developed **LLM-based system** for code translation and optimization across 5+ languages
- Built modular backend (**controller-service architecture**) with REST APIs
- Implemented **JWT + OAuth authentication** with secure routing
- Designed structured prompt pipelines improving output consistency
- Built real-time UI using **Monaco Editor** with async processing

Emotion & Stress Detection (RoBERTa)

Live

- Fine-tuned **RoBERTa** for multi-class emotion detection (28 classes)
- Achieved **80%+ accuracy** in stress classification using NLP models
- Built end-to-end pipeline using **PyTorch** with optimized inference

Experience

Software Development Intern — GHN Publications

Feb 2025 – Sep 2025

- Built responsive dashboards using **React + Tailwind** across 20+ modules
- Improved UI performance and ensured scalable frontend architecture

Achievements

- IBM Hackathon 2025 — National Winner
- Published Research Paper — IEEE ICAIQSA 2024
- Solved **120+ DSA problems** covering arrays, hashing, greedy, and DP patterns

Education

Kalasalingam Academy of Research and Education

2022 – 2026

B.Tech Computer Science and Engineering

CGPA: 8.36
